PROFILE

I am a Full Stack Software Engineer with more than 3 years of experience in desktop app development using Delphi with Object Pascal, cross-platform development using Flutter, Web APIs using Flask, database management using MySQL, and front-end development using HTML, CSS, JavaScript, and ReactJS.

WORK EXPERIENCE

Full Stack Software Engineer

Amici Mercantile 2023 – Present

- Developed and deployed an ERP system with integrated features for Inventory, POS, CRM, and Customer Service across mobile, iOS, and web platforms.
- Led the development and continuous improvement of web services, focusing on enhancing performance and scalability.
- Introduced CI/CD pipelines to streamline development and deployment processes for the Flutter Web App.
- Mentored associates and junior developers, providing guidance and fostering skill development.

Associate Software Engineer

Ximera Business Solutions 2021 – 2023

- Contributed to the development and maintaining of our ERP System using Delphi and MySQL.
- Ranked as the top supporting agent for software-related tickets, providing effective solutions.
- Successfully migrated and deployed two Java-based mobile apps to Flutter, improving cross-platform capabilities.
- Developed and launched a new Flutter app for serial number scanning, enhancing operational efficiency.
- Assisted in developing and managing web applications using AngularJS and backend services with Flask.
